WINNER OF FC REGIONAL SCIENCE AND ENGINEERING FAIR COMPETES AT INTEL INTERNATIONAL

Mountain Vista Governor’s School/Liberty High School student Heather Wotton, winner of the Fauquier County Regional Science & Engineering Fair, senior division, presented at the Intel International Science and Engineering Fair underway in Los Angeles, CA, May 14-19. She received an all-expenses-paid trip to LA to compete alongside 1,700 other participants from around the world. Heather’s project, which also garnered her a second-place win at the Virginia State Science & Engineering Fair, was entitled “The Effect of the Removal of Mass on the Calculated Efficiency of Structural Beams.”

Heather Wotton, far right, is pictured with Shenandoah County, VA, students, I-r, Savannah Long and Jessie Clatterback, who are also in attendance this week at Intel ISEF.
